It contains 75 questions to be answered in 45 minutes, focusing on improving and revising passages. These questions are presented in multiple-choice format, requiring quick analysis and accurate selection of the best answer.

Types of Questions on the ACT English Test

The questions generally fall into four categories: usage/mechanics, sentence structure, strategy, and organization. Usage and mechanics cover grammar, punctuation, and verb tense. Sentence structure questions test understanding of sentence formation and parallelism. Strategy questions evaluate the ability to improve writing style and tone. Organization questions assess paragraph coherence and transition effectiveness.

Passage-Based Format

The test presents five passages, each containing 15 questions. Passages vary in topic and style, including narrative, argumentative, and expository. This format requires students to

apply their knowledge in context, reinforcing the importance of comprehensive practice. Familiarity with this structure helps students develop efficient reading and answering techniques.

Active Review and Error Analysis

Timed Practice Sessions

Simulating test conditions by timing practice sessions helps students develop pacing skills necessary for the 45-minute time limit. Regular timed practice ensures that students can balance speed and accuracy, avoiding rushed or incomplete answers during the actual exam.

Utilizing Process of Elimination
